

CALIFORNIA COMMUNITY COLLEGES INVESTOR OWNED UTILITIES (CCC/IOU)

Statewide Energy Efficiency Partnership Program

About the Partnership

The CCC-IOU Energy Efficiency Partnership advocates, promotes and supports energy efficiency in the California Community College system by leveraging resources from the Community College Districts, the Community College Chancellors Office, the State of California, and the four California Investor Owned Utilities, including Pacific Gas & Electric (PG&E®), Southern California Edison (SCE®), Southern California Gas (SCG®), and San Diego Gas & Electric (SDG&E®). This unique Partnership results in achieving common goals for energy use reduction, cost savings, and fostering a more sustainable future.

In addition, the CCC/IOU Partnership plays a major role in the ongoing success of the California Clean Energy Jobs Act of 2012 (Proposition 39) within the Community College System by employing the infrastructure of the Partnership to identify, install, and closeout energy projects.
